

# DOMINIX.

INDUSTRIAL DESIGN

---

“Great companies are built by great products” - Elon Musk

We design and develop the very core components for your companies- your products. May it be for the niche market, a B2B segment or a consumer driven volume game; the essentials of design , design thinking, human psychology, semantics, ergonomics etc. are practiced with a heavy sense of economics, manufacturability and sustainability.

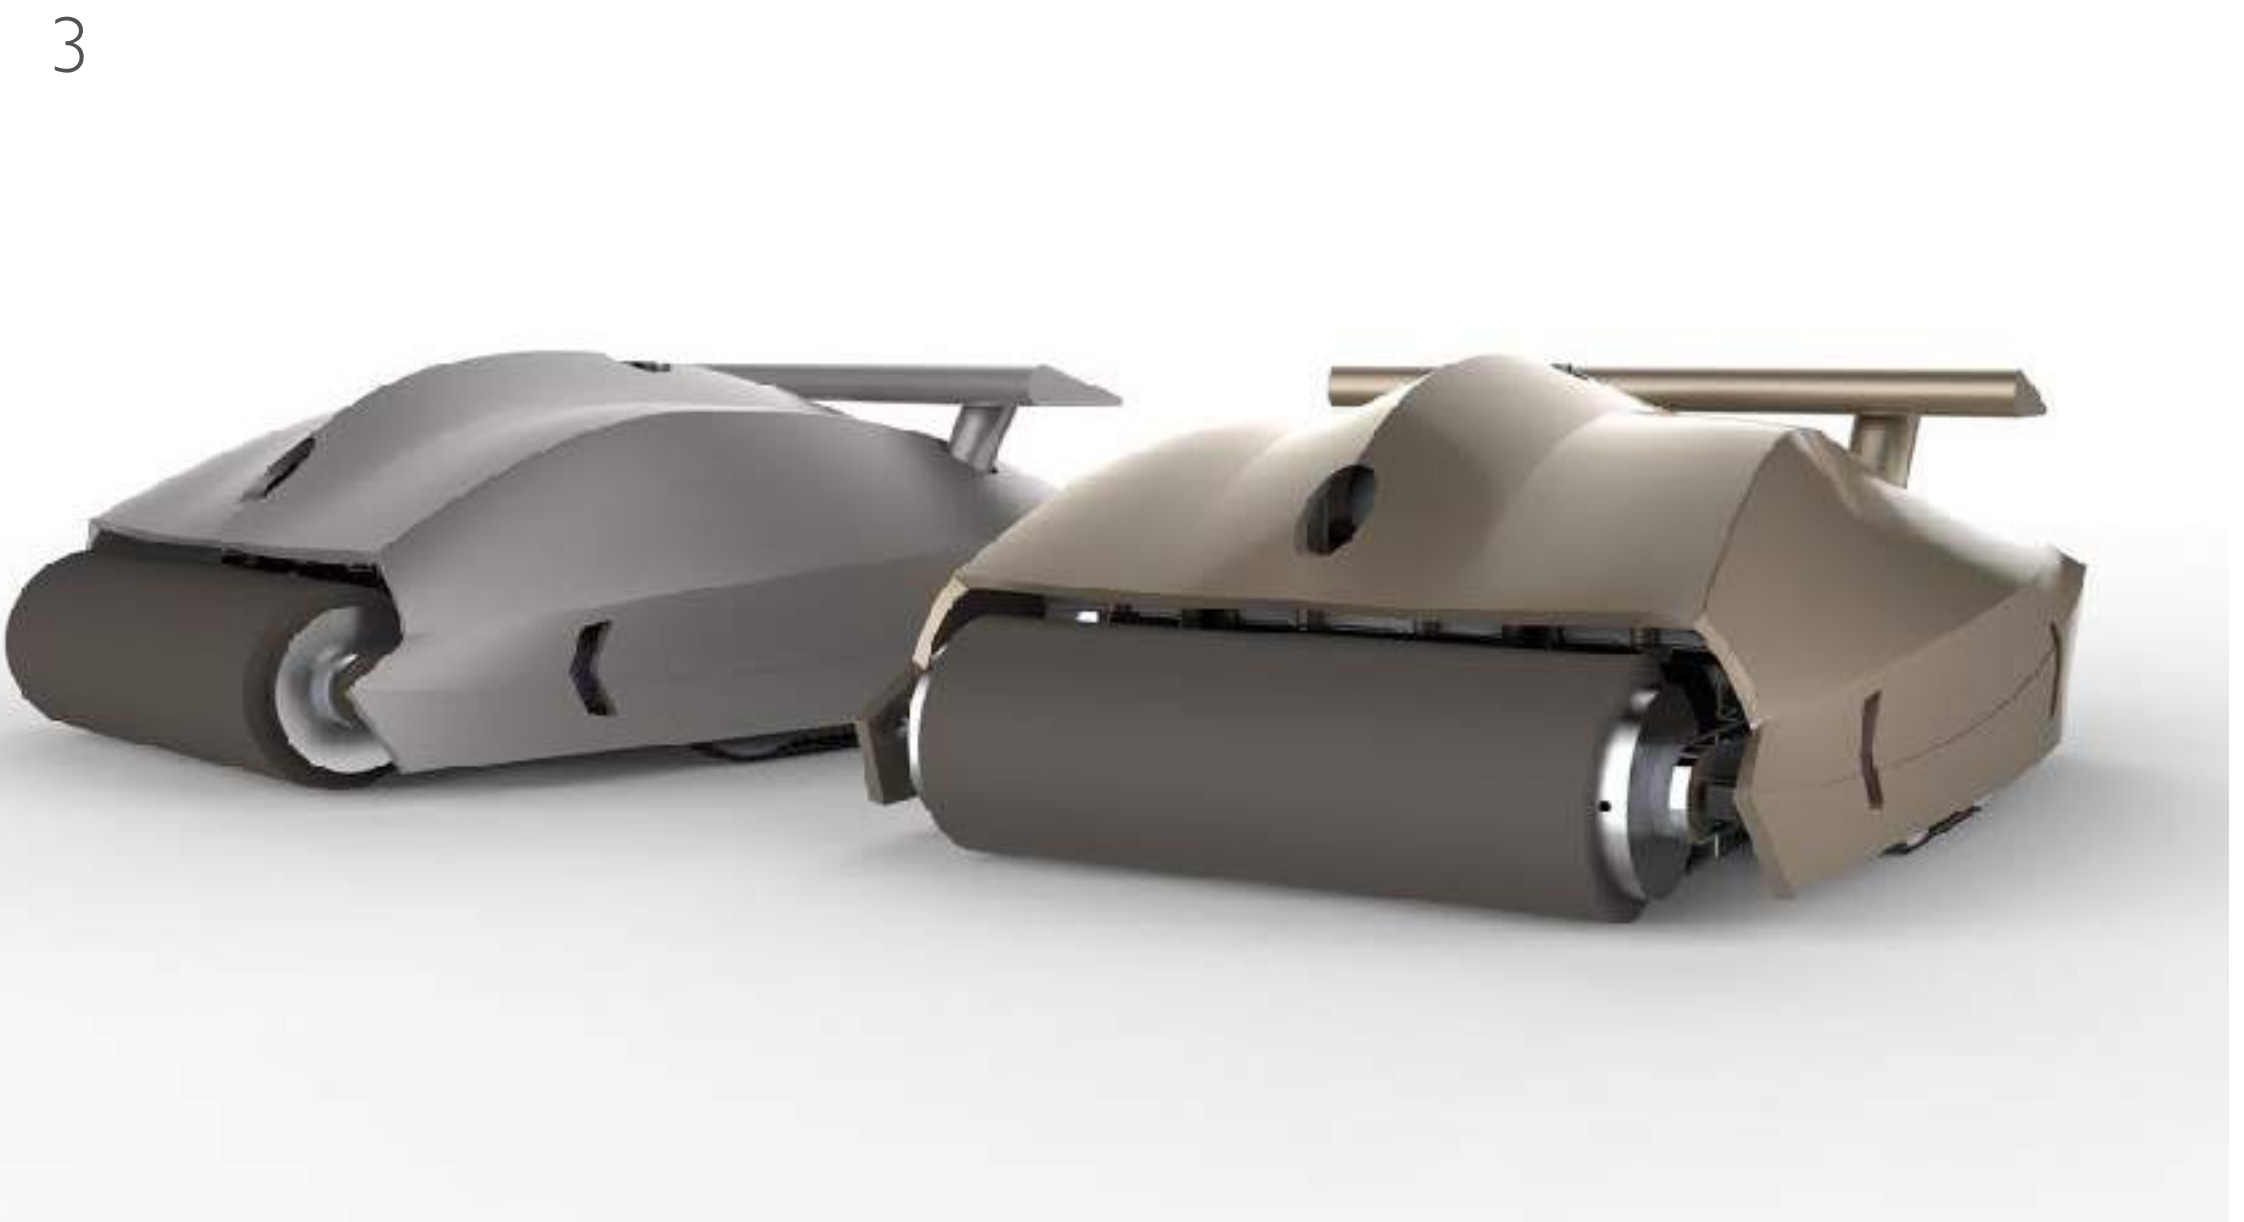

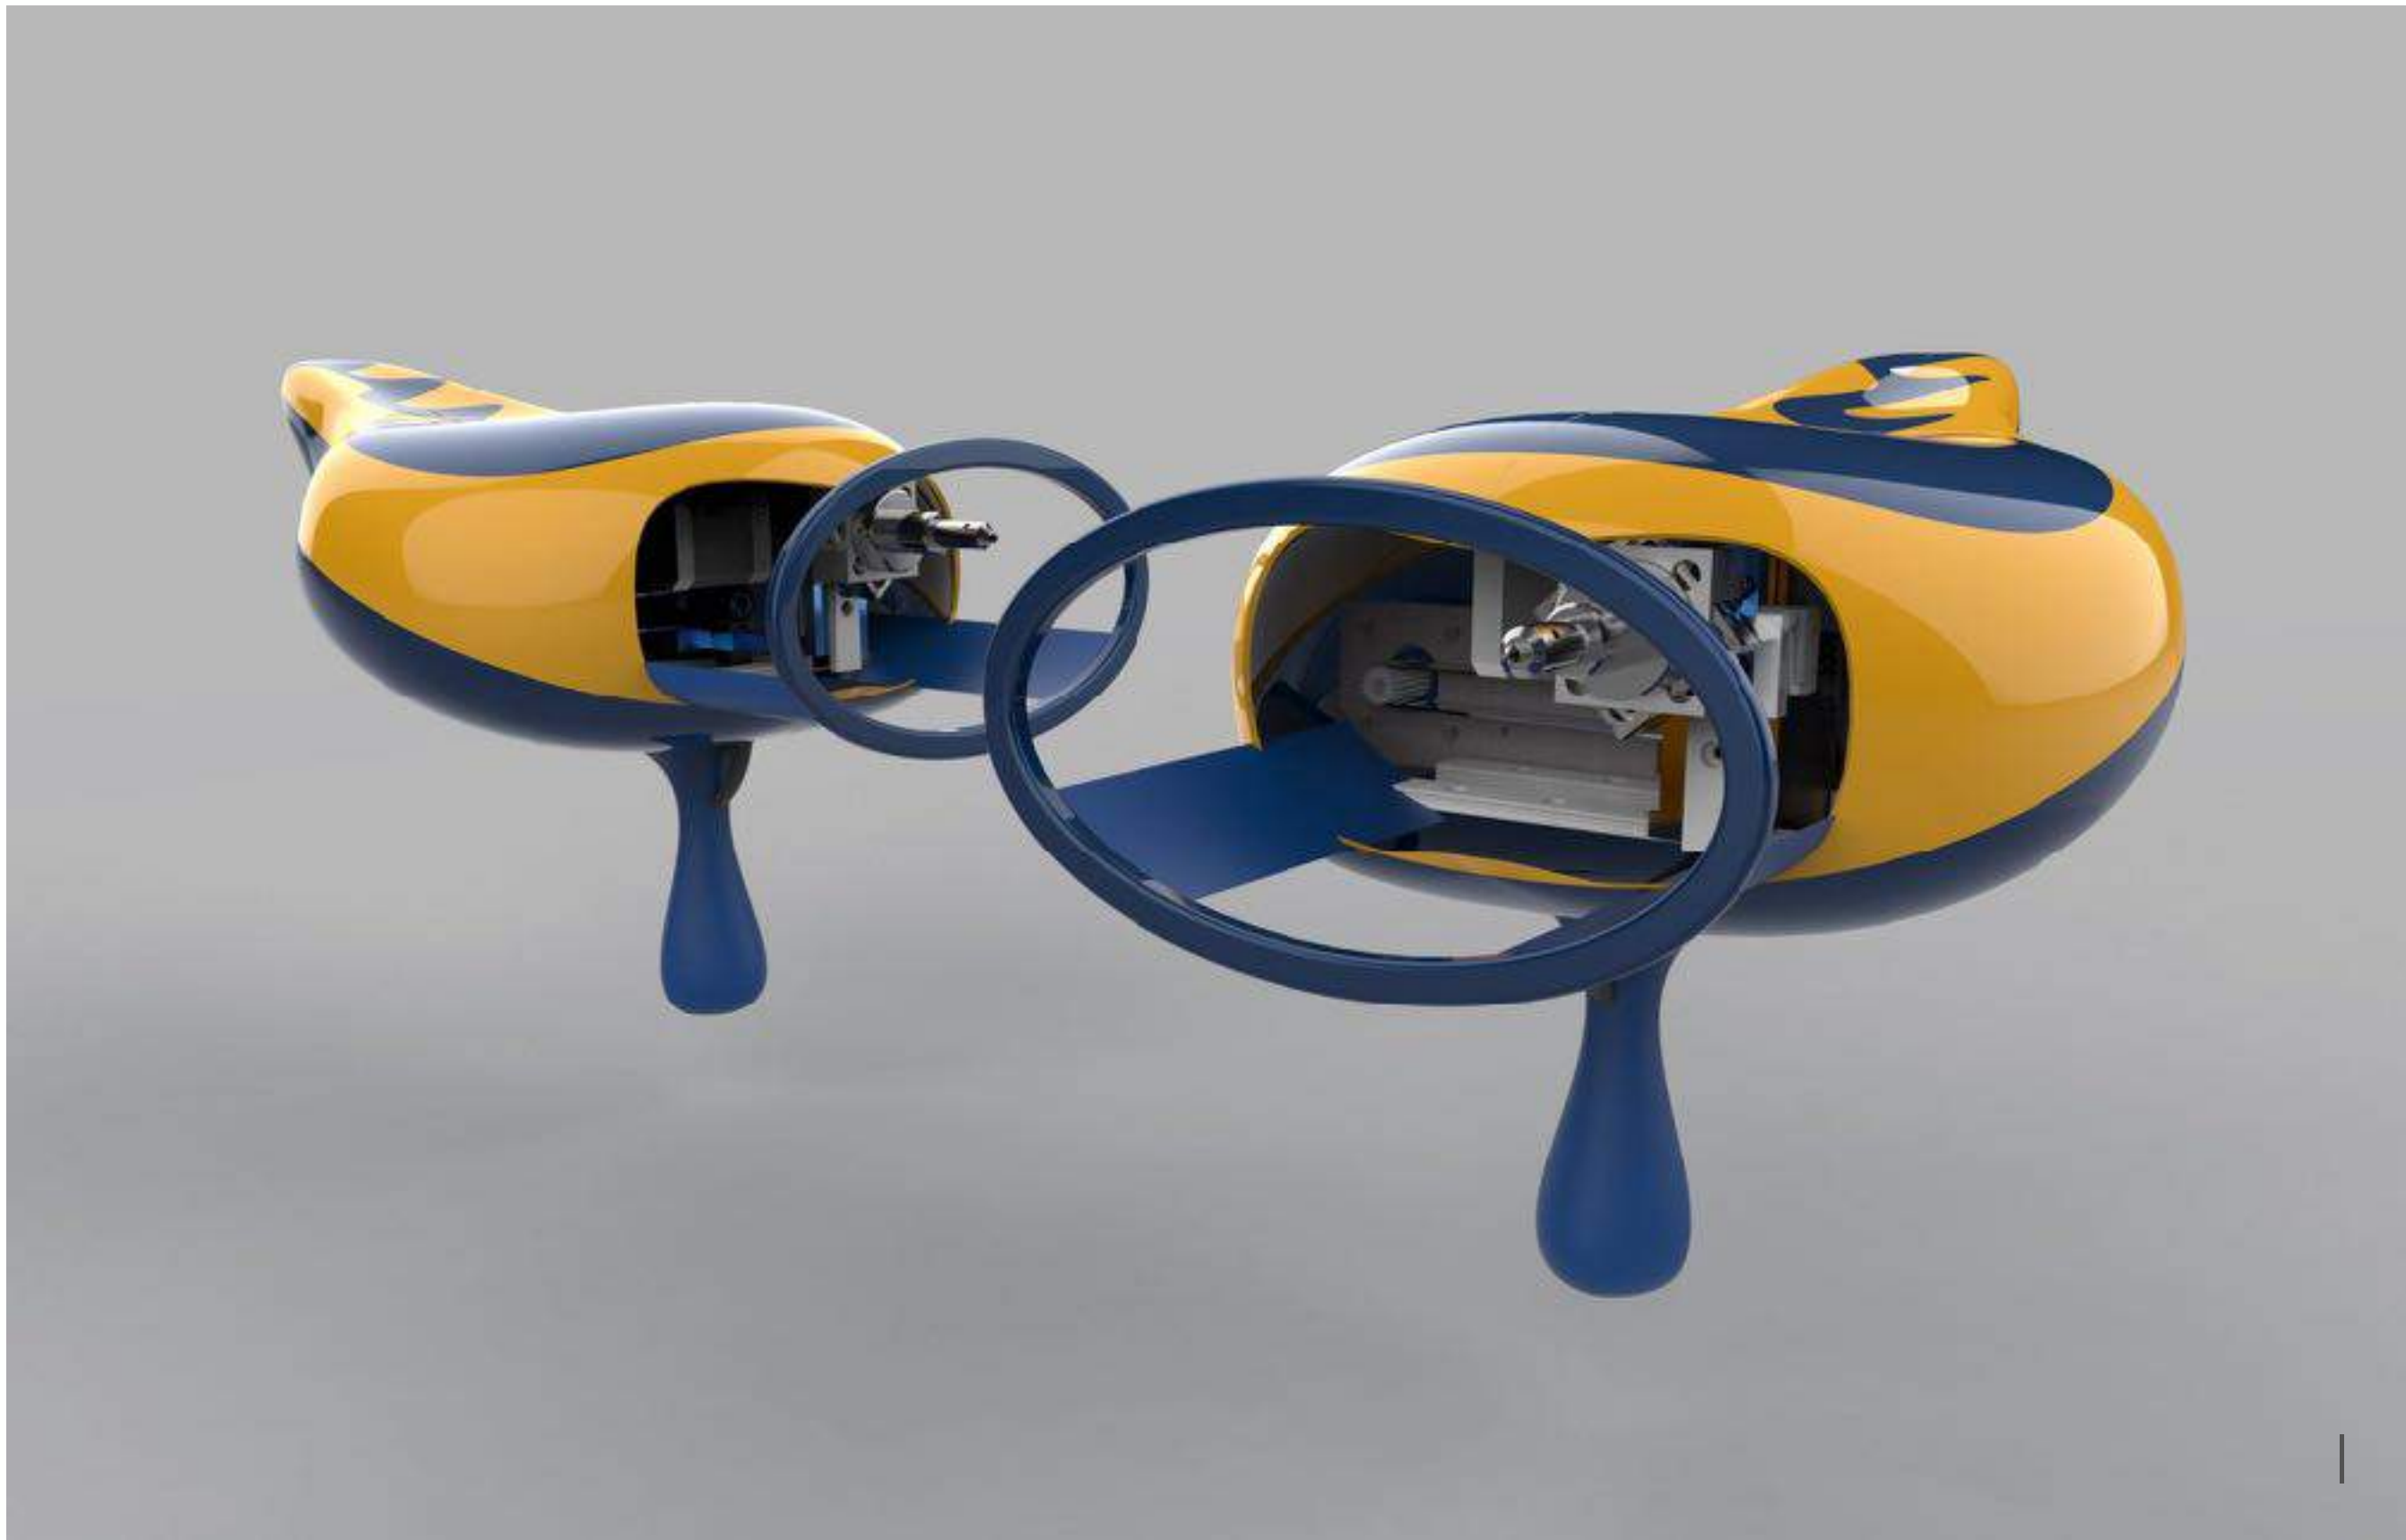

# MACHINE

Easy, Economic and Efficient. Usability and speeding processes- core industrial.

Case Study Example: Slitter- PGI Tech, India, 2017

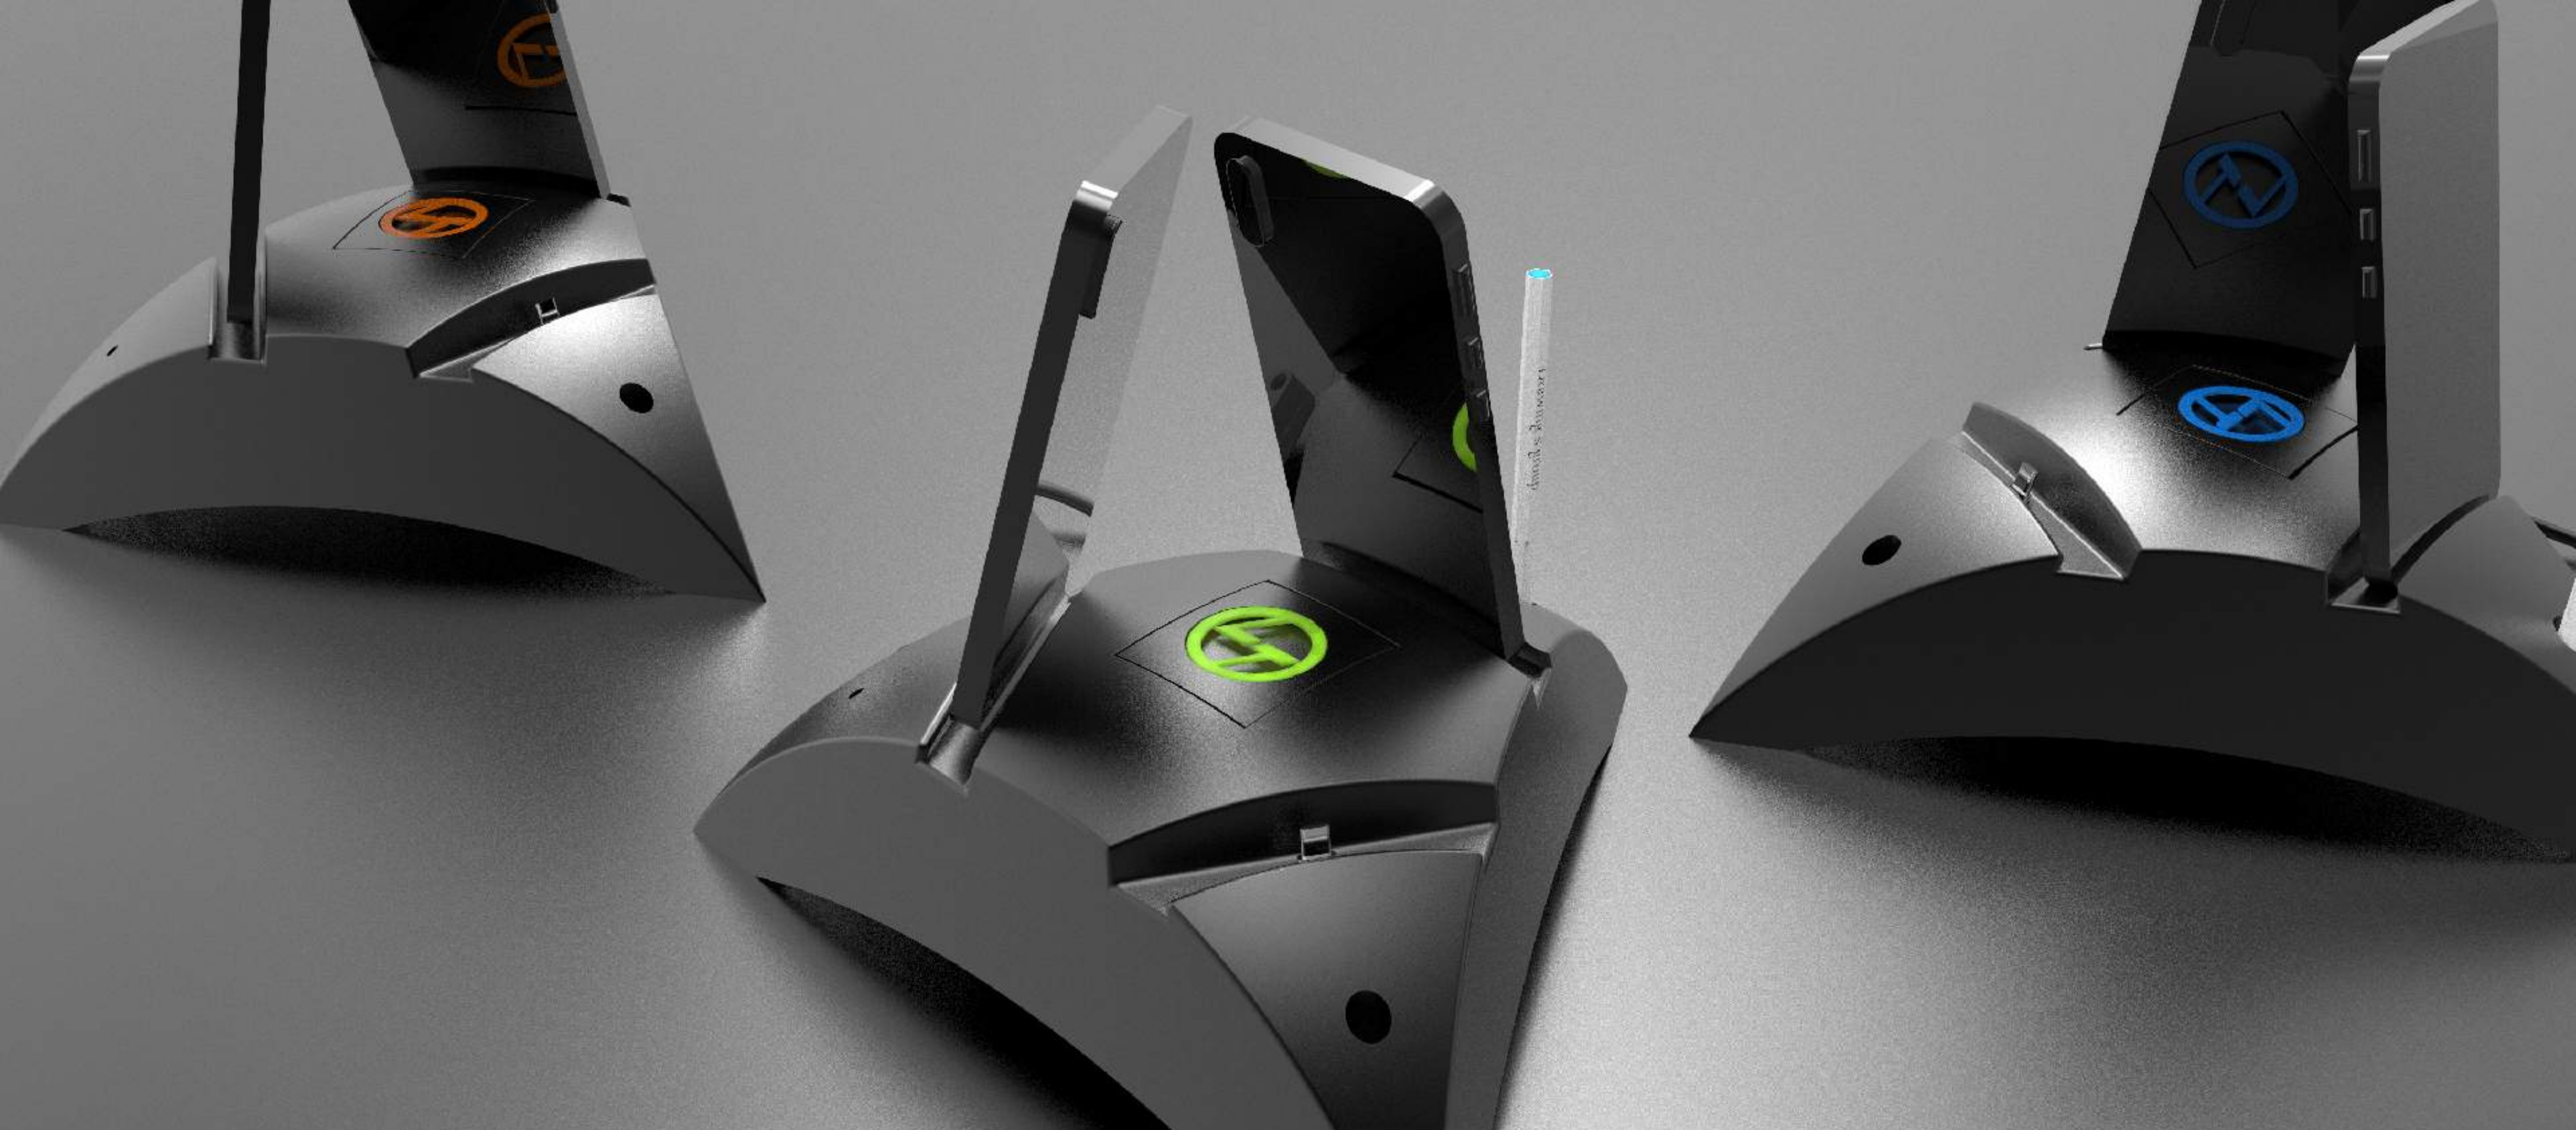

The slitter is a label slitting machine designed for the Aurangabad Based PGI technologies to slit the labels of Big liquor companies like McDowells, Chivas, Absolut and so on. The slitter is designed in such a way that a precision upto 10 microns is achieved. One of a kind in the world.

**50+** completed projects

## / WORK EXAMPLES

1. World's smallest hand held marking machine 'Contempero' designed for StampIT CNC , Europe. (2017)
2. The world's first Paani-Poori Veding Machine designed for Essem Srinisons, India. (2018)
3. Automiza-Autobot. An unmanned self tank cleaning robot designed for Automiza Gujrat, India (2016)

# CONSUMER

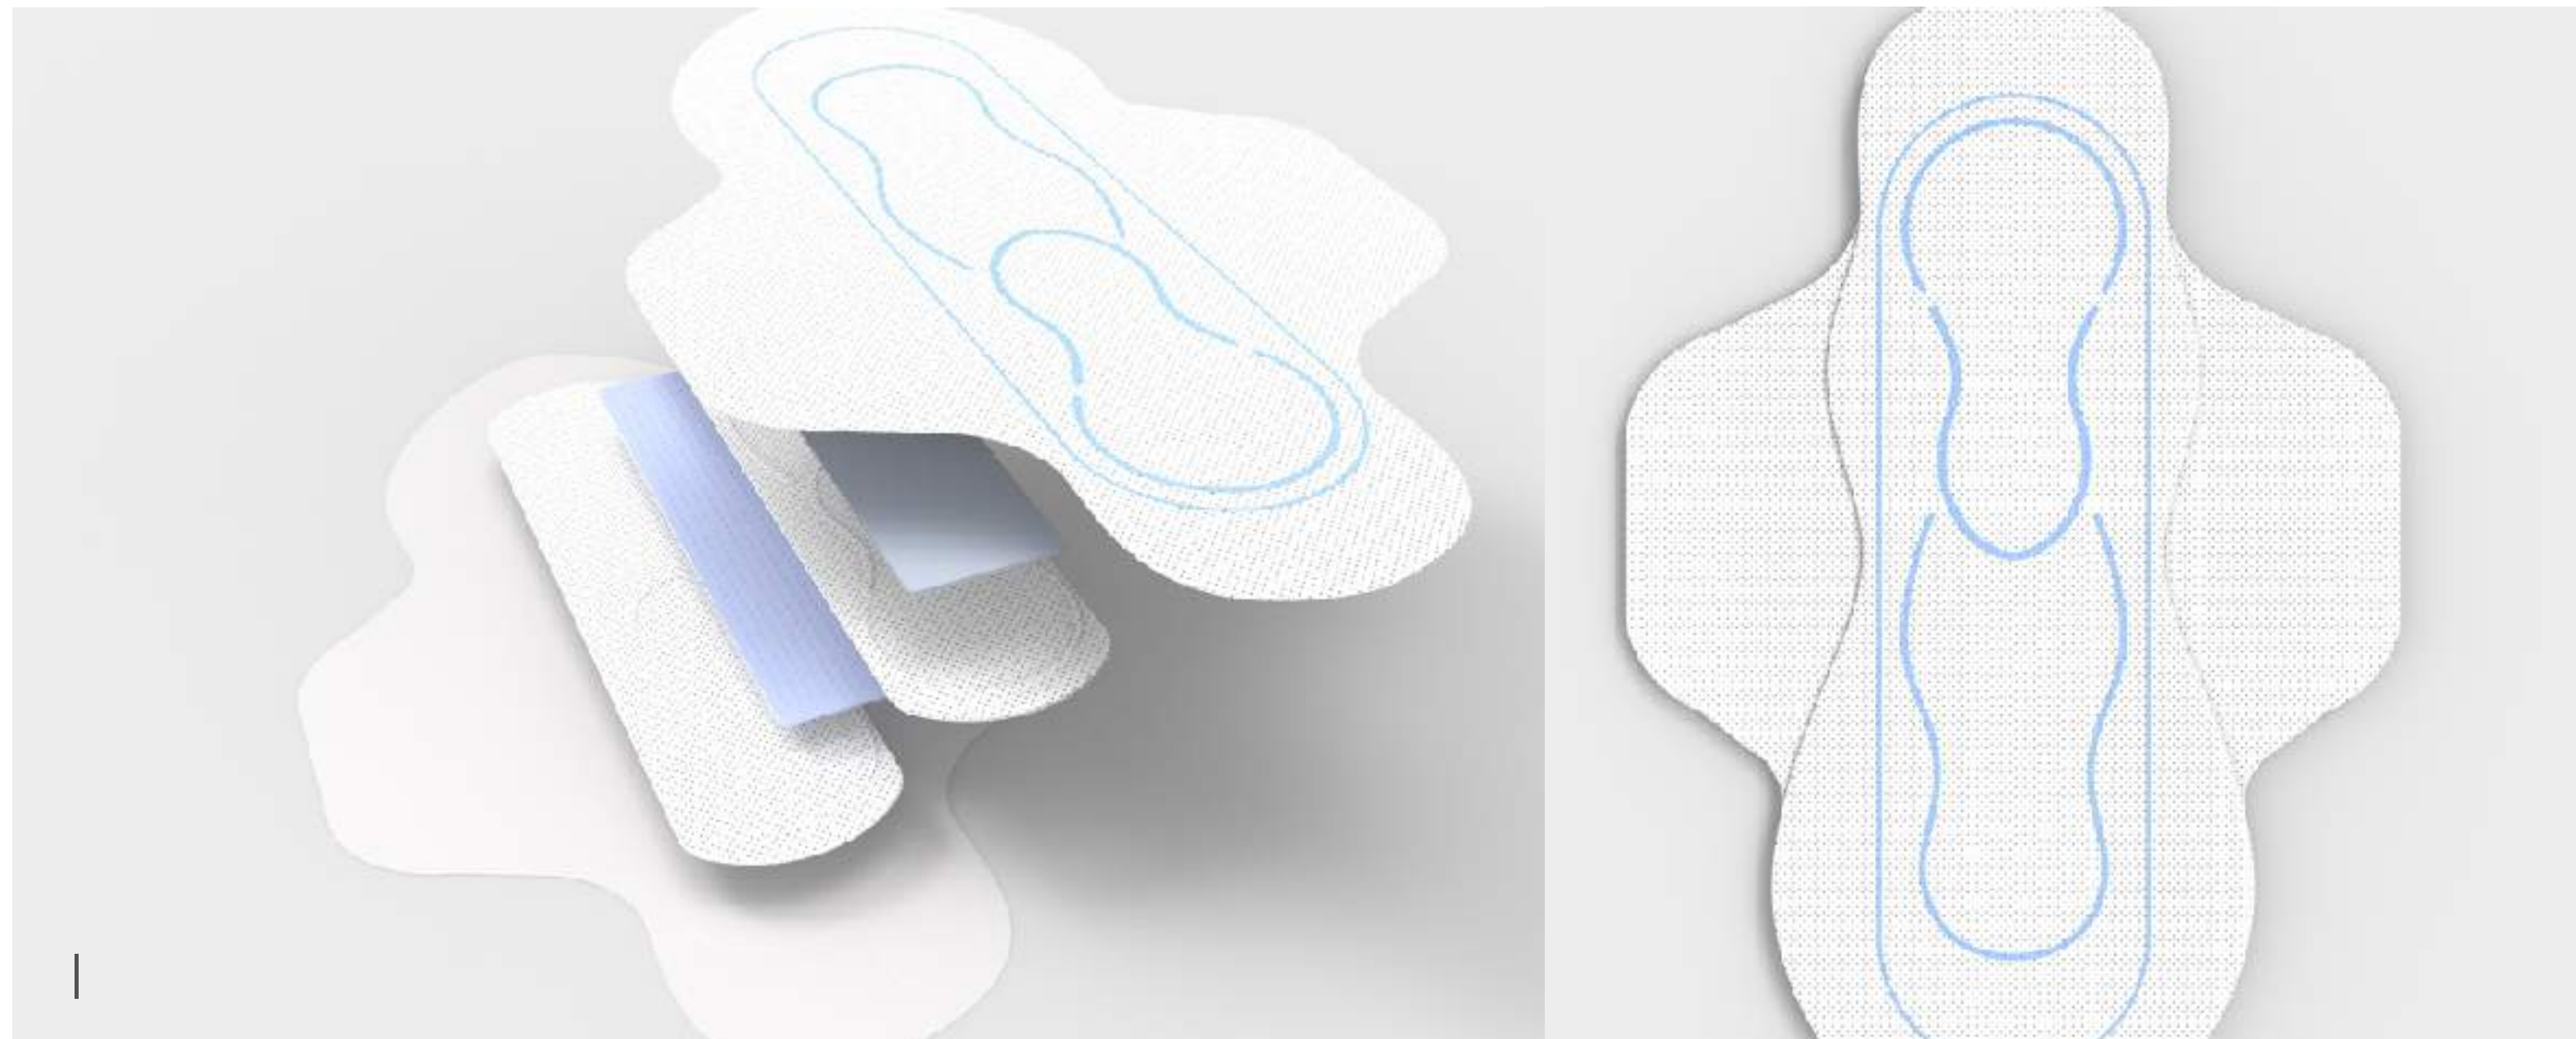

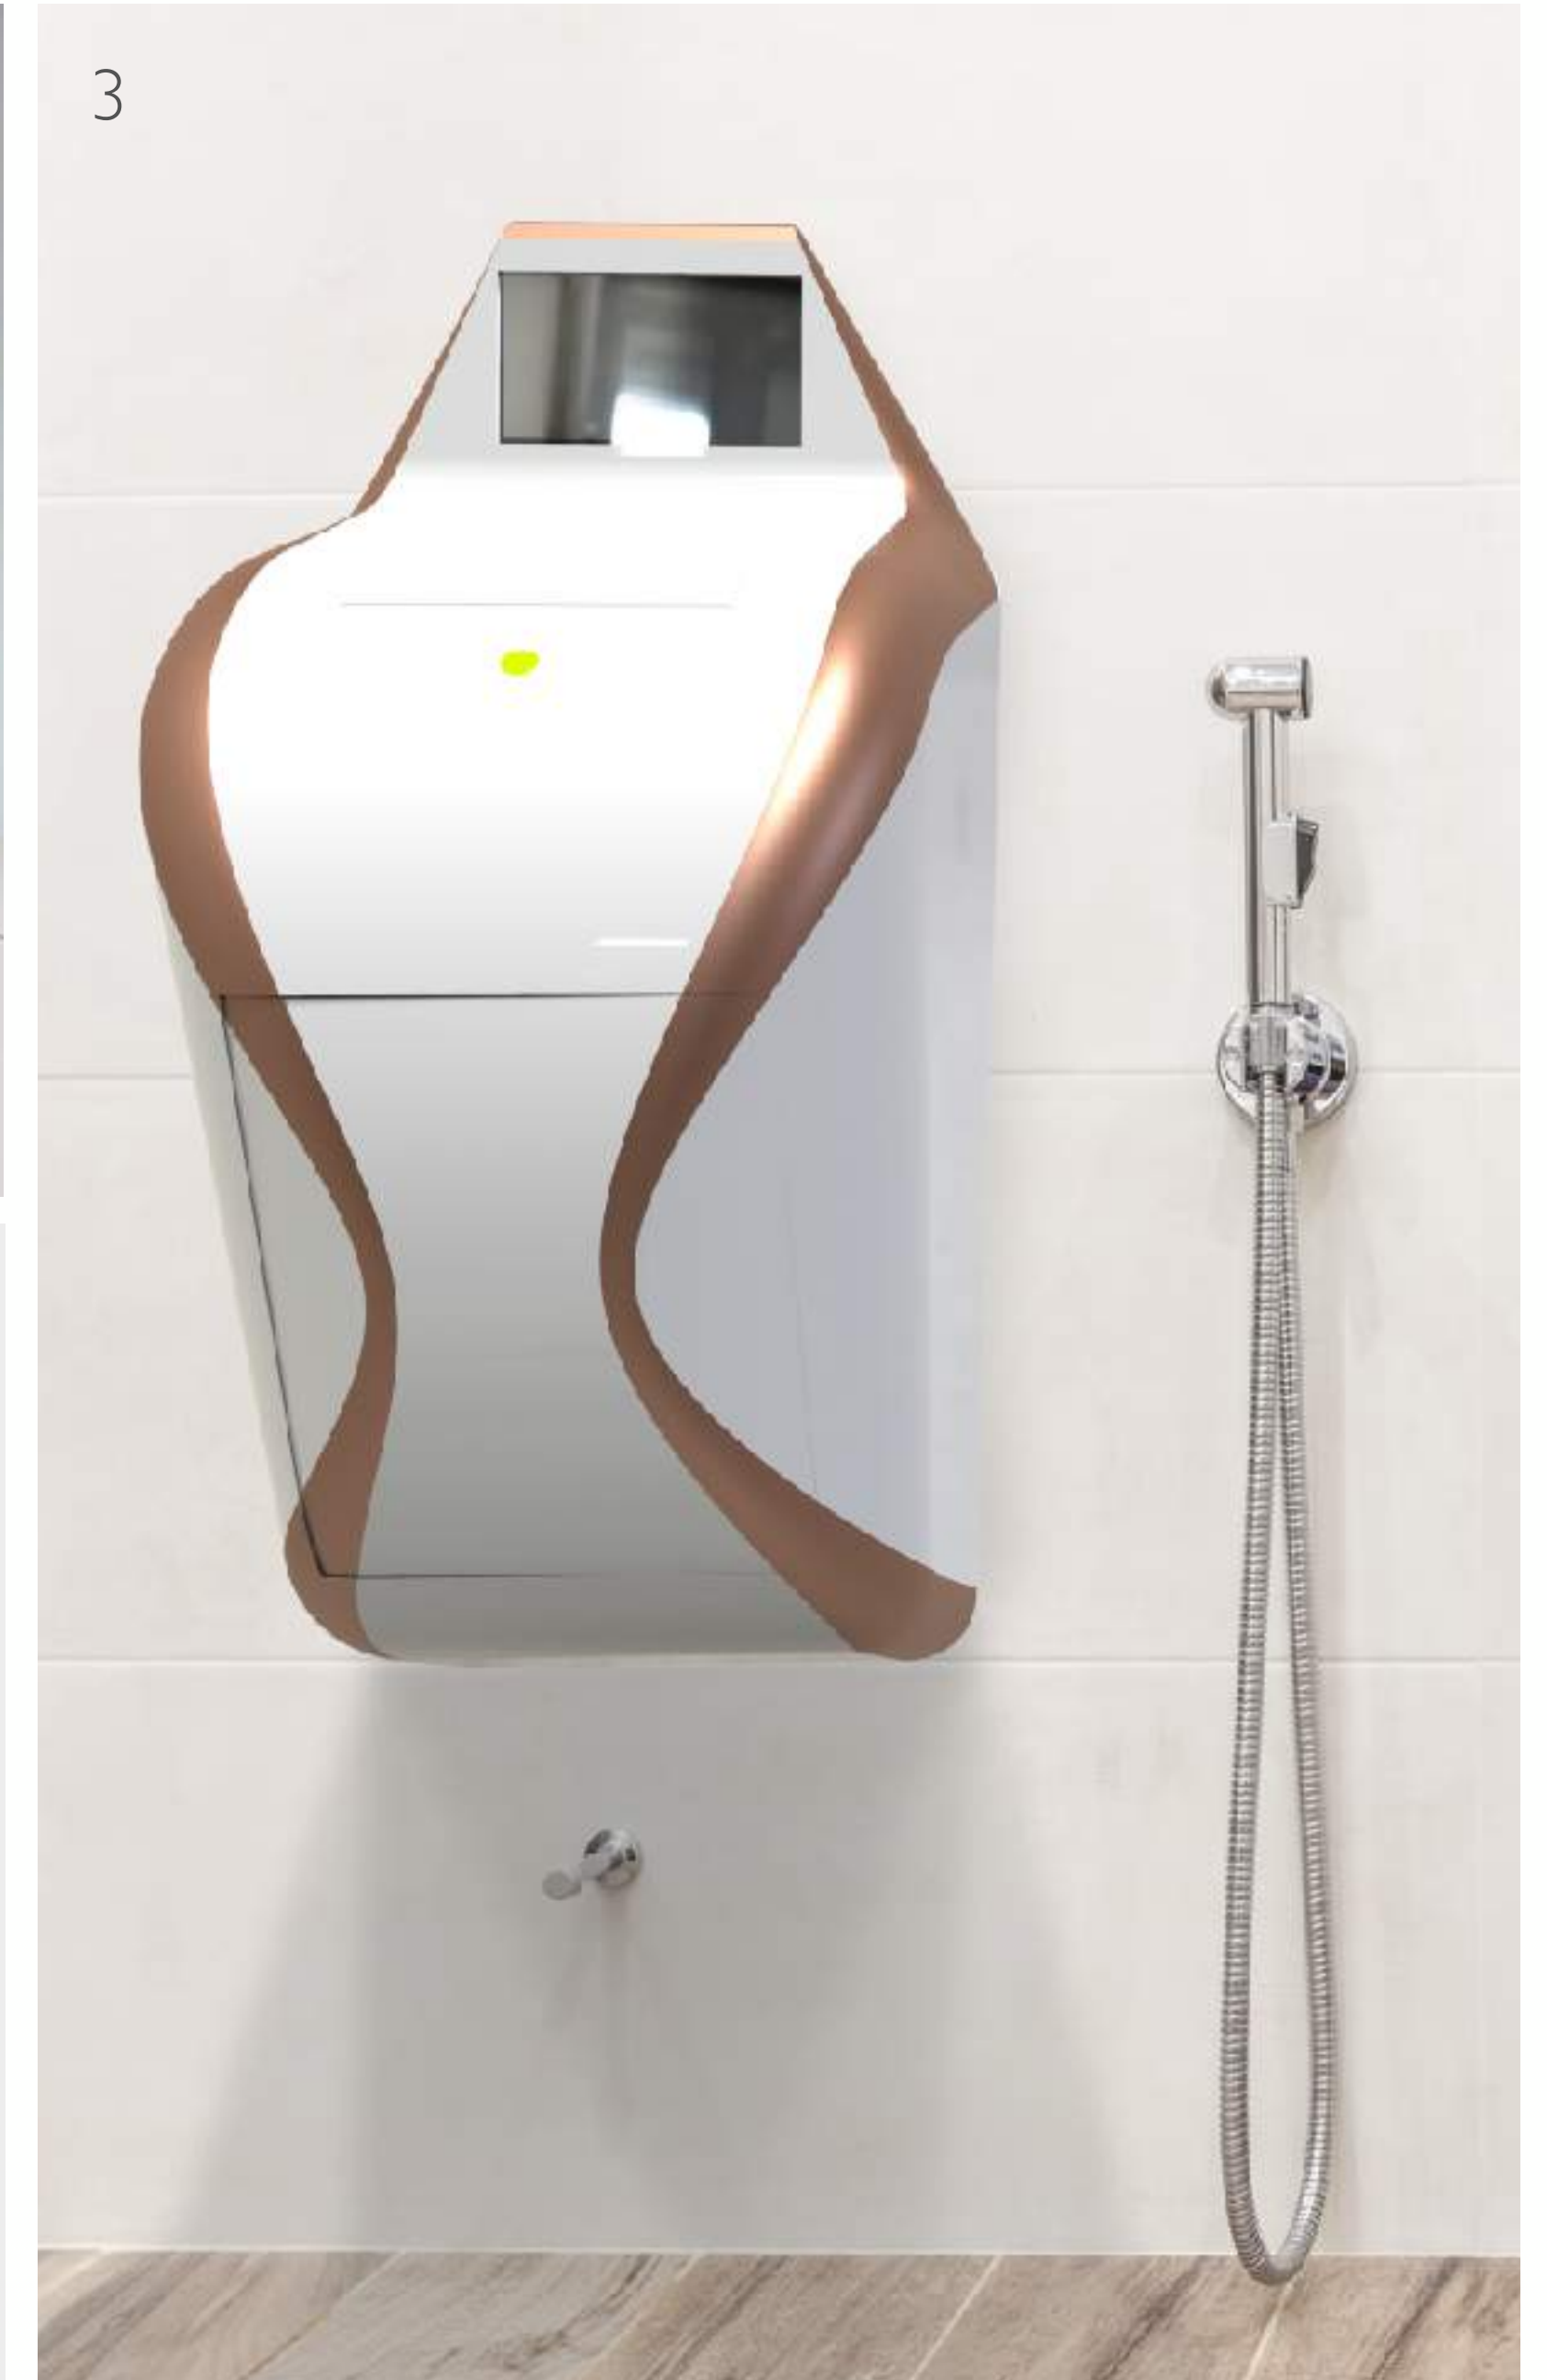

Not just needs, we focus on the Aspirations of the customer. Completely design thinking Embedded.

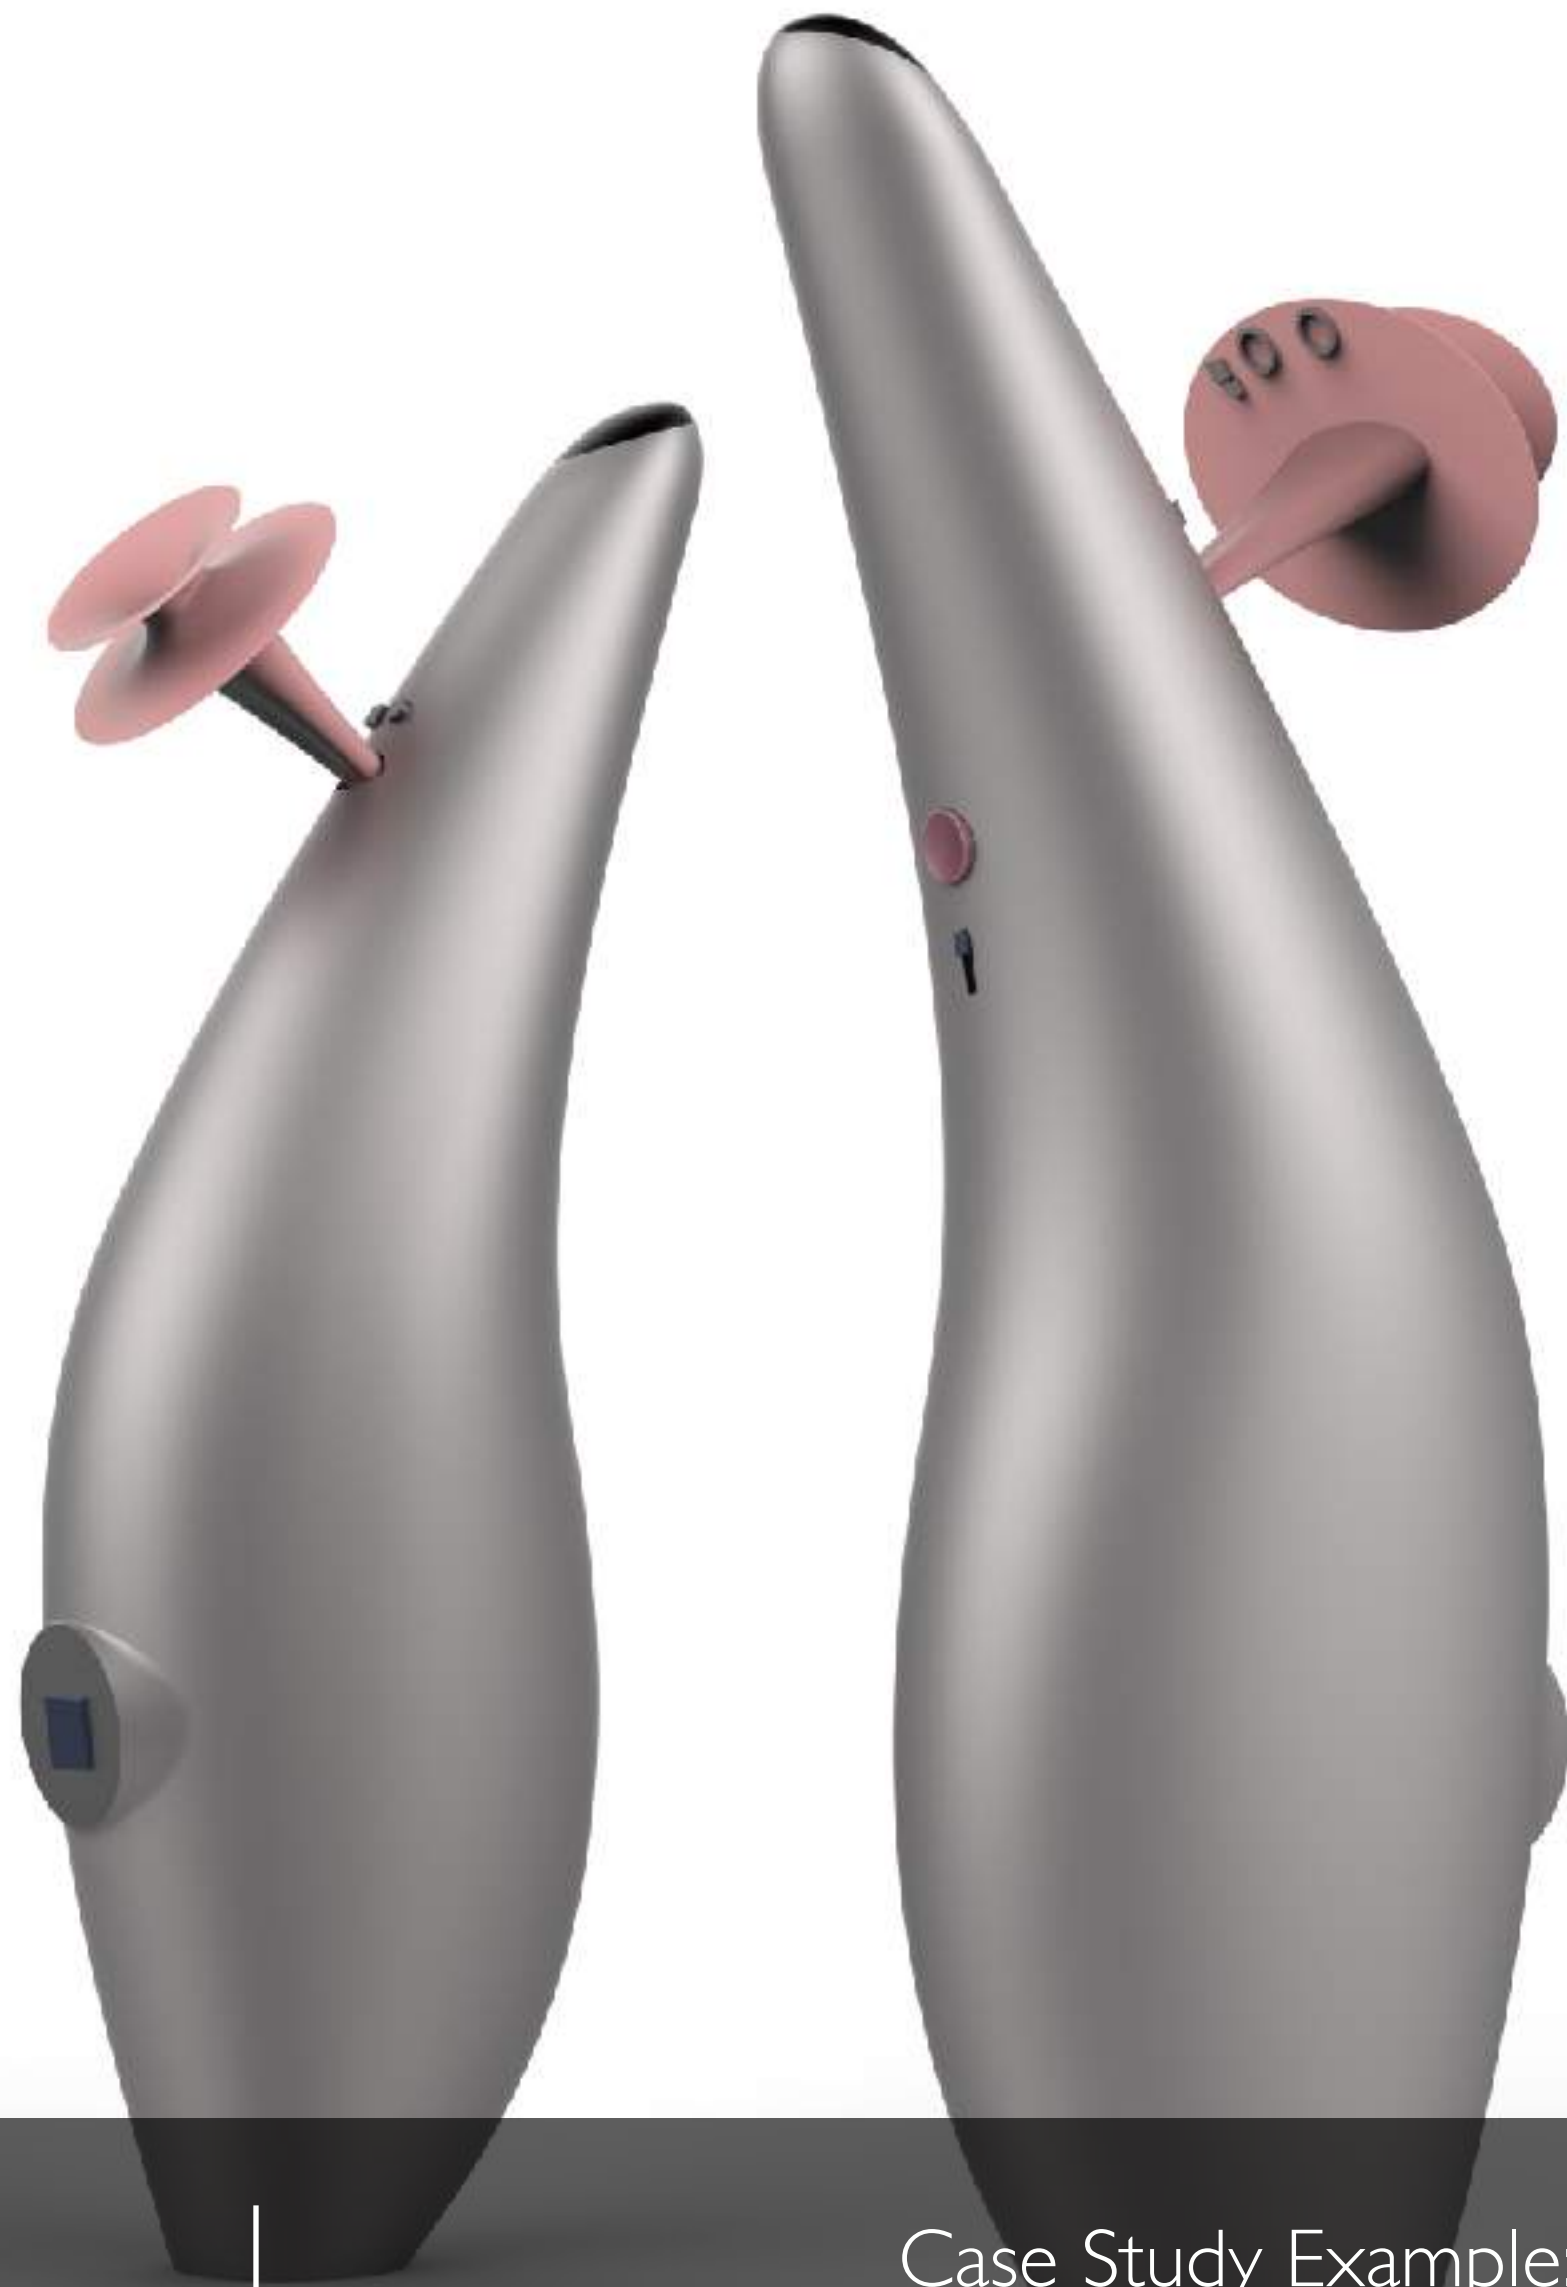

Case Study Example: L&T Charger, India 2019

Larsen and Tubro, one of the leading businesses in the world approached us for a rather simple product. Many customers wait for meetings, interviews and sometimes even conferences. These mobile charging units keep their mobiles charged and gives them a chance to interact with each other.

# 60+ completed projects / WORK EXAMPLES

1. Economic yet environment friendly Sanitary pads designed for Rugved Hygienecare, India (2018)
2. 12PH setup Alkaline water Ioniser designed for Alkine India. (2018)
3. National Award winning sanitary pad shredder designed for PadCare (2018)

# HEALTHCARE

We pioneer in the medical product and interface design with i4. It's everything to do with precision.

Case Study Example: Mediswan, Multisensor Diagnostics, Germany 2018

Mediswan was designed for Multisensor diagnostics- A German Diagnostic Company. It is a household medical instrument which measures many vital functions of human body such as breathing rate, heart rate, pulse rate, blood pressure, lungs functioning and oxygen level.

1

**40+** completed projects

## / WORK EXAMPLES

1. World's smallest Polymerase Chain Reactor designed for ARI, Central Govt. of India (2016)
2. Hernia Operations Tack Dispensing gun designed for Orthocrafts, India (2017)
3. India's most distributed BP machine designed for Diamond BP, India (2018)

2

3

# LIFESTYLE

We observe how people live. With the empathy, we are able to create necessities and solutions.

Case Study Example: Byteseal, India 2019  
Byteseal is a smart card designed by Dominix, developed by Delta Tech for a growing startup Elementik Technologies Pvt. Ltd. A smart card, having all the essential information that can give you access everywhere is what byte seal essentially is! Unlocking through a two factor authentication, the passcode and a fingerprint sensor at the core.

1

**120+** completed projects

## / WORK EXAMPLES

1. Bean Lamp showcased at Pepperfry 2021, In-house (2017)
2. Wave Island Watch showcased at Hyatt Pune PDF, In-house (2018)
3. Flo Vase showcased at Ishanya PDF, DPL, India (2018)

2

3

# MOBILITY

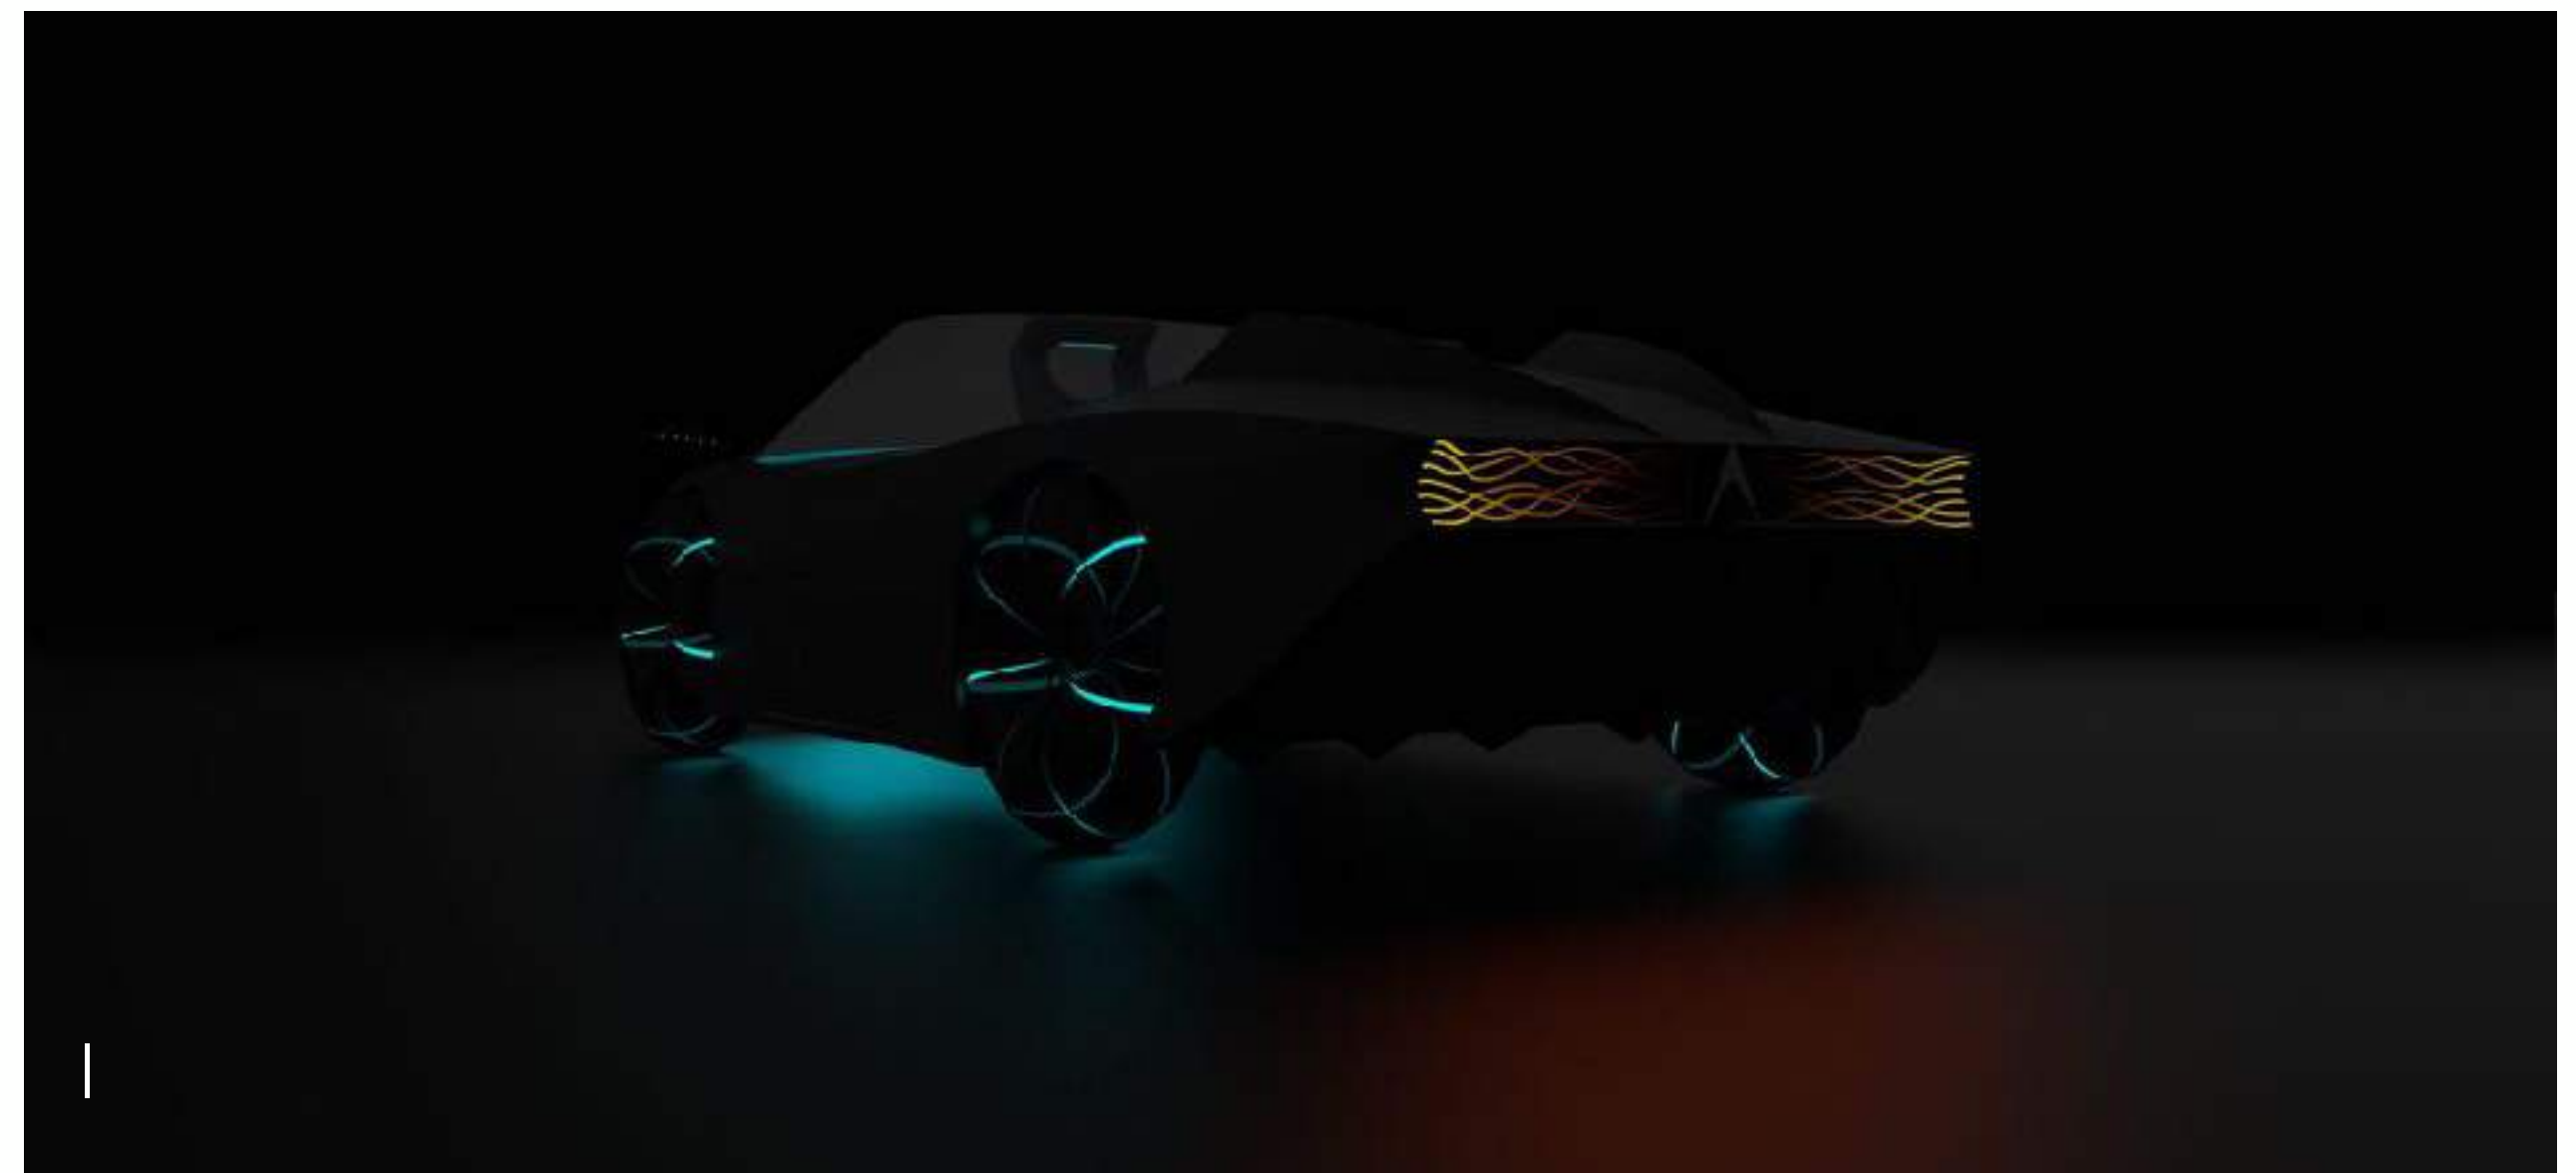

Human species love to travel. We make sure that the experience is phenomenal.

Case Study Example: Paknikair- concept India 2020

Paknikair is an aircraft designed and conceptualised as an in-house project. With luxury interiors and lifestyles- it was later pitched to Urbane Jets and the Chitale family - HNIs in India

# 15+ completed projects / WORK EXAMPLES

1. Foxi, Concept Car for DPL Dubai (2020)
2. Cogent - Concept Car for Mazardi, Auto Expo India, (2018)
3. Future Pod Mobility concept for FutureWorks, DG, USA (2021)

*Lamborghini*

# ELECTRIC

Electric mobility is not a future anymore, its the present. We design the dynamics.

Case Study Example: Lamborghini , Iso, Italy 2021

Visualisation, Design and Rendering done for the Electric Golf Carts for Iso by Tonino Lamborghini (Lamborghini Group) Bologna, Italy. Launched on 22nd November 2021, it's Lamborghini's entry into consumer electric Vehicles.

21+ completed projects

## /WORK EXAMPLES

1. 3 wheeler stand-scooter designed for Voule Mobility, UAE (2018)
2. India's most awaited Kinetic Luna designed for Kinetic Ltd (2021)
3. Kinetic Honda, India's one of the most loved bikes designed for Kinetic-Honda (2021)

Thank you.
