Transparency is what matters. At Dominix, with a **50+ team** spread across the world, it's always a Domi- Fami. Everyone is extraordinary at something. We choose the right amount of the right quality in an individual to make this amalgamation the best and the fastest growing young design studio in the world. So far more than 100 people have been employed at the organisation.

Abled Labs

Emerged from the immense need of the hour and Dhruva's passion for designing for the specially abled, Abled Labs is a Dominix NGO established in collaboration with Avantika University (World's first Design University by MIT) situated in Ujjain.

The aim is to create bespoke and tailor made product and experience solutions completely free of cost for the specially abled individuals across the world.
